How to share a plant on the MyDeltaSolar Cloud to another account

1. Go to the IOS or Google Play store to download the "My Delta Solar" App or visit the MyDeltaSolar website.
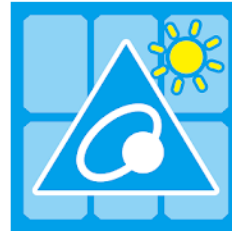

2. Please ensure that your phone/computer is connected to the internet in order to sign in.
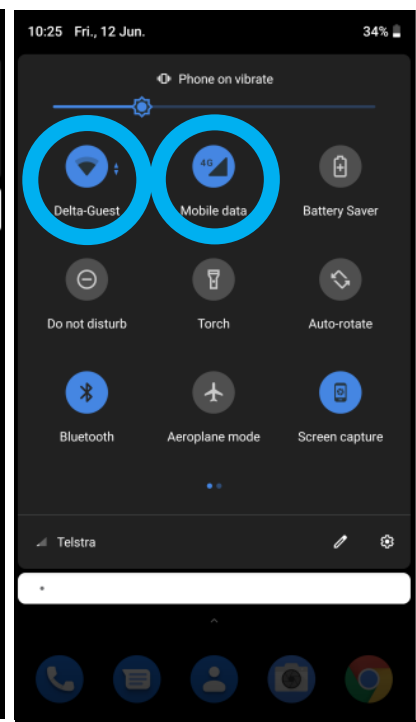

Via MyDeltaSolar APP:

Tap on mobile data to turn it on.

Or

Swipe from the top of the screen down   →   Swipe from the top of the screen down again   →   Connect the phone to the home Wi-Fi
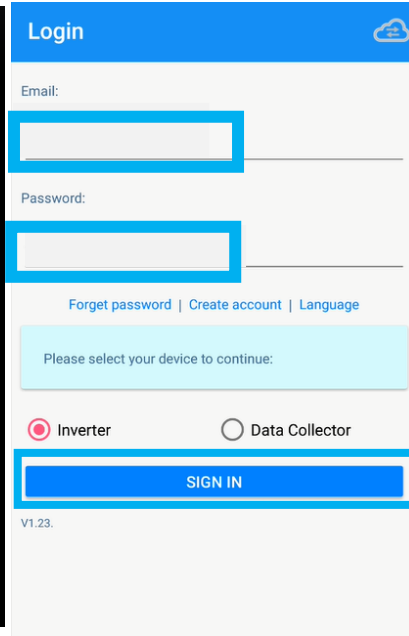

3. Launch the app and type in your details to Sign In.

3.1 Tap on the MyDeltaSolar APP

3.2 Fill in your email and password and Tap on "SIGN IN"

3.3 Tap the plant you wish to share

4. Tap on "Setting"

5. In order to share the plant you must click on the "+ ADD" button.

Please type in the email address of the account. Press send to then have the plant shared across.

Alarm Email notifications can be set by typing an email address in one of the 3 fields.

This can be done via the MyDeltaSolar website in exactly the same way.
