## How to monitor your Inverter via the MyDeltaSolar App without a cloud connection

1. This can only be done via the APP, go to the IOS or Google Play store and download the “My Delta Solar” App.

MyDeltaSolar

DELTA\_App.tn Tools

3+

2. Please turn off your mobile data and connect your phone to the home Wi-Fi internet connection.

Swipe from the top of the screen down

Swipe from the top of the screen down again

Tap on mobile data to turn it on/off. (symbol is black and white when off)  
Connect the phone to the home Wi-Fi

3. Press the cloud button at the top right, after connecting to the inverter you may need to press the cloud button again to swap to P2P. On apple devices this is the “APP” button.

The image illustrates the connection process between a Delta inverter and a mobile device. It shows the web interface for logging in and monitoring production, alongside the mobile app's Wi-Fi settings where the inverter's network is selected. Blue annotations highlight the cloud button on the web interface, the connection dialog box, the selected Wi-Fi network, and the back button on the mobile app.

**Web Interface:**

- Login:** Email: \*\*\*\*\*@gmail.com, Password: ....., [Forget password](#) | [Create account](#) | [Language](#). **SIGN IN** button.
- Home Dashboard:** **PRODUCTION 2,095 W**, **ENERGY TODAY 300 Wh**. Inverter status: ON GRID, Energy total: 300 Wh. Selection:  Today,  Month,  Year,  20Y.
- Graph:** Production [W] vs Hour (4-20). Shows a spike at 10:00.

**Mobile App (Wi-Fi settings):**

- Wi-Fi: On
- Delta-Guest (Connected)
- Delta\_Test\_Warehouse (Saved)
- Delta\_Test (Saved)
- Delta-05U18100107WA** (Selected)
- Delta-Office
- ICON-17e453
- Roejen Guest

To get more options in the menu press the cloud button after signing in

3.1 Tap on the MyDeltaSolar APP

3.2 Fill in your email and password and Tap on "SIGN IN"

3.3 Tap the cloud button.

3. Press "OK" and your screen will swap to the Wi-Fi screen. Connect your mobile device to the Wi-Fi of the inverter using the password of the cloud account used to setup the device.

If not cloud connected yet the default password is: DELTASOL

Then return to the App (use the return button at the bottom of the phone on Android devices)

If the screen does not change to as below you may need to press the cloud button again.

From this point you can monitor you inverter here and see further details by pressing the menu button “☰”
